Executive Summary

Aspetto, Inc., headquartered in Fredericksburg, VA is a small business and SBA 8(a) certified company. The company was established in 2008 with a simple goal in mind, to provide the highest level of customer service to our clients and equip them with the highest quality product. Although the company started as a clothing line, it quickly evolved into becoming America's first bullet-resistant clothing line and then making major improvements in the tactical/military gear. 90% of Aspetto's revenue comes from Military and Law Enforcement sales directly. Aspetto was recently awarded the patent for its latest quick-release buckle system which allows the user to quickly don/doff the carrier. This technology is now being used by the biggest armor companies in the world such as Point Blank Enterprise and agencies such as DHS SRT and the USAF. Aspetto's focus on Research and Development has given the company a strategic competitive advantage in the industry. Abbas Haider, CEO, and Robert Davis, COO, made the Forbes 30 under 30 list for being a game changer in the armor industry in 2018. Aspetto has successfully delivered thousands of armor products every year to customers such as the USAF, USMC, Department of State and various law enforcement agencies.

Production Capacity

Aspetto offers a full life cycle support to its clients. From idea to prototyping to mass production, Aspetto covers all aspects of production for its clients. With the R&D lab located in Fredericksburg, VA, the management has a hands-on approach with all the projects. Aspetto relies on a team of advisors whenever necessary.

Aspetto can currently supply the required units per month. Aspetto utilizes laser cutters, Gerber automatic cutters, and automated stitch machines to make the production process more efficient. Manufacturing facilities utilized in production are ISO 9001:2015. Aspetto's production capacity can be expanded based on the requirement.

Aspetto designed a successful model of armored t shirt which was the first of its kind. Aspetto, Inc. was the first company to provide ballistic t-shirts on a bigger scale to the federal government and has sold thousands of units over the years. The lean manufacturing process allows Aspetto to be extremely competitive providing the client with significant savings. Being a GSA Schedule holder and an SBA 8(a) certified company, Aspetto holds itself to a higher standard of accounting and quality control standards.

Aspetto has close strategic partnership with industry leaders such as Brookwood, National Molding, Protect the Force, Point Blank Enterprise, MMI Textiles and AFC.

Aspetto relies on its experienced advisors for guidance before making major decisions. These advisors include successful entrepreneurs, strategic planners, industry experts, manufacturing experts, textile experts and logistic experts.

Aspetto has a long history of supplying quality armored products and carriers to the law enforcement agencies and multiple federal agencies. Below you will find only a few projects as an example of our impeccable customer service and on time delivery.

Aspetto, Inc. complies with all Buy American Act and Berry Amendment compliance requirements. Aspetto will make sure that all the subcontractors follow this requirement as well.
